#### 4.1 Overall conclusion on the level of compliance achieved

In 2021, regarding animal health requirements, the main priorities of the official control plan on animal health were fulfilled and corrective actions were taken upon non compliances detected therein. Overall, official control actions and activities, in conjunction with the issuance of Ministerial Decisions, updated manuals and related recommendations at the level of the Central Competent Authority have contributed to the effective function of the official control system in the field of animal health and in the activation of action plans for the correction of non compliances. Further, targeted national and union programmes on training and collaboration with competent authorities and bodies, as well as on program management, were implemented, adjusted according to the COVID-19 situation. The number of official controls was determined by the concurrent conditions and mainly a) the COVID-19 pandemic restrictions, b) the lack of staff and resources, situation to be resolved with the recruitment of new staff (ongoing procedure), c) the increased workload imposed on the competent authorities in the veterinary authorities of the Regions/Regional Units.
